# BMJ INDUSTRIES

ACTIVITIES AND LOCATIONS

**Cigarette Factory**

**Tobacco Processing Plant**

**Moassel Factory**

## BMJ Industries Montenegro

## BMJ Industries FZ-LLC United Arab Emirates

# THE COMPANY

Founded in 2010, our company has grown to a multinational level producing the highest quality tobacco products that include tobacco processing, wide range of cigarette format production, shisha tobacco and shisha related product manufacturing.

We are committed to the highest standards of company conduct, from how we source our tobacco leaf and raw materials, right through to how we market our products to adult consumers.

With our brands being sold across the globe, we take pride in the sustainable and responsible way we run our business, and the recognition we've received, which reflects on the continuous growth we see year by year.

# QUALITY

Our factories produce different cigarette formats and products with state of the art production lines. We have quality control labs and a highly qualified quality control team, with state of the art laboratory machines in every factory, to ensure product quality throughout the production process. Every batch of cigarettes is checked, and if one does not meet our strict standards, it is discarded.

To ensure sustainability of quality, all tobacco and finished goods' stores are temperature controlled. This maintains the correct level of humidity and temperature to ensure freshness and a premium taste in all our products.

**THE CONTEMPORARY AUTHENTIC**

MAC uses the expertise for our blending heritage to craft this unique recipe.  
It's the personal touch of our Swiss Master Blender and the extra-fine cut that  
distinguishes the taste of sheer smoothness.

MAC appeals to progressive individuals who respect traditional values when  
combined with contemporary style and technologies.
